"OUR BUSINESS IS GROWING"

Our Third Catalogue

Another year has rolled around and here we are with our annual message to the Glad lovers. In spite of the fact that our fall sales have been far larger than ever before, we find ourselves at the beginning of 1929 selling season with a larger stock than we had in January, 1928. We are going to move a lot of these bulbs because we are going to make it worth while for you to buy them.

In looking back over the past year it is a matter of intense gratification to us that our percentage of repeat orders is so large. Quite a few of our customers have bought each year since we started. We believe this means satisfaction and we again wish to make plain our policy that at all times it is our intention to satisfy our customers. Occasionally this might be impossible because there is no plant that will grow to perfection under every condition. The *Gladiolus*, however, is easier to grow than anything else that compares with it in beauty.

We wish to call the attention of our readers to the fact that many of the finest Glads have been reduced materially in price this season. There were a wonderful lot of varieties introduced a few years ago at very high prices. These are now selling at a price where you can afford to buy them and they are better in many cases than those introduced more recently. Among these outstanding ones are several from Australia and Germany, such as *Marmora*, *Coryphee*, *Paul Pfitzer*, etc.

All of our bulbs were grown on new volcanic ash soil that had never been used for Glads before. Stock was treated with Semesan before planting as a preventative of disease infection. We believe the crop we harvested is proof of the quality of the soil and the correctness of growing methods. We guarantee all bulbs to be true to name. Our acreage is rogued very carefully almost every day and practically the only chance of bulbs not being true is when grown from bulblets we have purchased but that did not reach blooming size the past season. If at any time a rogue should occur in the bulbs we sell, tell us and we will make it right.

We started this business because of love of flowers and it is a pleasure to us to test the varieties and pass them on to you. We believe the following pages contain a list of most of the finest Glads ever grown.

PAUL B. BLAKE,
J. HAMILTON BLAKE,

Varieties shown are, from left to right: Scarlet Wonder, Lacinatus, Marmora, Pink Wonder, Richard Diener and Mrs. Leon Douglas. Some idea can be formed of the height of Marmora when you realize the vase was about 11 inches tall.

Here Are the Listings

Following this heading are over one hundred varieties that we have selected as very worth while. They represent a collection displaying almost every color of the rainbow and range in price from those that the poorest gardener can afford to the best that the fancier desires. Immediately following the descriptions, comes the price list of all sizes we have in stock. While of most varieties we have quite a quantity, of others the stocks will not last through a month of selling. Coming next after the price list are short descriptions and prices of about eighty more varieties. Of these we have only a few and in many cases can spare only a single bulb or a few bulblets. We are trying, however, to give you a chance at all the varieties possible.

As you notice, we offer bulblets of most all kinds. We do this without any recommendation as to their purchase by amateurs. Some of them will grow as easily as radish seed while those of others will require lots of attention to get any great percent to germinate.

To those who are selling bulbs or flowers we will be glad to send our wholesale list which will appear about the middle of January. If you grow bulbs in quantities and are entitled to trade prices, ask for it.

During the past season, we received many letters commending us on the quality of our bulbs, liberal count and general good treatment. We thank these friends for their kind words. In fact we would have liked to publish a few of these letters in this catalogue but decided that we would rather have you find out how good our bulbs are by trying them than to give you the opinions of others. We may not feel quite as modest next time and let you read a few of these communications.

We now invite your attention to a list of varieties that with proper care will make your garden a thing of beauty. We hope you take time to read it over carefully.

A. E. KUNDERD—New ruffled salmon pink. Strong grower.

ALBANIA—One of the best commercial whites. Very dependable.

ALLEN V. BUNCE—Good orange, darker throat. Strong and prolific.

ANNA EBERIUS—Velvety rose purple, throat deeper. Slightly ruffled.

ANTHONY B. KUNDERD—Heavily ruffled cream, over-spread pink. Light yellow lip. Very attractive.

BENGAL TIGER—Orange ground, attractively striped brown and blue. An odd color that is pleasing.

SEE PRICE LIST ON PAGE 11

CARMEN SYLVA—One of the very best whites. Tall, straight spike of lasting quality.

CATHERINE COLEMAN—Fine spike of soft salmon, darker throat. Great exhibition variety.

COPPER BRONZE—A mighty fine prim. grandiflorus. Distinctive coppery bronze color. Large flowers.

CORAL QUEEN—Very fine coral pink, soft yellow blotch in throat with red feather. Very lovely color and of good size.

CORYPHEE—Pfitzer's famous new pink. A very pure color with white throat. Tall spike and a prize-winner.

CRIMSON GLOW—Fine glowing crimson. Low priced but too good to omit from your garden.

DIANA—Good low priced red. A favorite of commercial growers.

DEW DROP—Extremely heavily ruffled light pink.

DIENER'S AMERICAN BEAUTY—American Beauty shade, cream throat. Almost the whole spike of this fine variety flashes open at once.

DIENER'S WHITE—A very good creamy white. Medium late. Large spikes.

DR. F. E. BENNETT—One of the best ever introduced. Large, fiery orange red. Many open and stands sun and rain. The price is reasonable too.

DR. VAN FLEET—Its earliness and fine color have made Dr. Van Fleet desirable. Rose blended with cream. Tall and slender.

DUCHESS OF YORK—Strong-growing dark purplish blue. Plant a little late so as to miss hottest weather. Its color burns on our hottest days.

E. B. WILLIAMSON—A purple prim of a shade that is different and fine. It has large size and is good grower. New but not expensive.

EDEN—A very early prim, tall and straight. Pink and white. Large bulbs make several spikes.

E. J. SHAYLOR—Fine ruffled variety of deep rose pink. Hard to beat but low in price.

ELIZABETH TABOR—Very early pink with crimson blotch. Resembles the later variety, Mrs. Pendleton. Very popular.

ELF—Lemon buds; flower white with cream lip. Good vigorous grower.

ETHELYN—Tall orange primulinus. Resembles Orange Queen but nearer self color. Has cut-and-come-again tendencies.

EVELYN KIRTLAND—Tall bright rose pink, shading darker in throat, with distinctive red blotch on lower petals. Old but fine.

FONTAINE—Very lovely ruffled peaches and cream variety.

FRANK J. SYMMES—Fine, ruffled dark salmon pink.

GAY HUSSAR—Large rich salmon orange, orange yellow throat, scarlet throat markings. Rapid multiplier.

GERTRUDE ERREY—This glad made Americans realize that the Australian growers were worthy of notice. Large

flowers on a tall spike. Shell pink shading to almost white in center.

GIANT MYRTLE—Tall spike of lovely pink and white flowers. A well-grown Giant Myrtle is hard to beat.

GIANT NYMPH—Large tall variety of salmon rose pink with creamy yellow throat. Very popular.

GLADDIE BOY—An extremely large open primulinus grandiflorus. Ruffled, orange pink, yellow throat. A good grower and propagator.

GLENDALE—Tall glowing purple. Fine spike.

GLORIANA—You can't beat Gloriana for color. Golden salmon with cream throat. Good sized blooms and several open.

GOLD—A fine graceful yellow. Not quite as deep color or as large as Golden Measure but very dainty.

GOLD EAGLE—Very early rich golden yellow, ruffled. Makes fine spikes even from bulblets and the color is very clear and fine.

GOLDEN DREAM—Deep golden yellow. Tall strong spike. Blooms rather late. Nothing yet to compare with it in a deep yellow.

GOLDEN FRILLS—Heavily ruffled deep yellow prim. Flame cerise feather in throat.

GOLDEN MEASURE—One of the best yellows. Deep color, tall and strong. The demand always exceeds the supply.

HARBINGER—Fine new color. Distinctive burnt orange shade. blooms of good substance. Medium height, straight stems. Each bulb makes several spikes. Good propagator.

HEAVENLY BLUE—Fine strong spikes of lovely clear light blue color. Color is lighter than Konynenburg. Good propagator.

HERBSTZAUBER—Late-blooming orange salmon. Fine open flowers on strong spike. A new importation from Germany.

HERADA—A good sized standard variety, well-known and liked. Mauve self-color distinctive from any other.

JACOBA VAN BEIJEREN—Light purple self color. Fine strong grower. Many open making wonderful spike.

J. A. CARBONE—Large salmon orange, yellow throat. Very iridescent and will stand the hottest sun. Strong, straight spikes.

JACK LONDON—One of Diener's best cut flower varieties. Light salmon with orange flame stripes. Good propagator.

JANE ADDAMS—Fine new lavender. Large flowers and fine color. In very great demand.

JENNY LIND—Very lovely color of pink and cream. Straight spikes with several open.

JOE COLEMAN—A good light red at a moderate price. Ruffled. Fine for cut flowers.

JOERG'S WHITE—A mammoth white, blooms of over 7¼ inches in diameter growing in our garden last year. Nothing beats it in this locality.

SEE PRICE LIST ON PAGE 11

J. T. PIRIE—Mahogany brown with yellow and darker brown in throat. Odd but pleasing.

KARL VOLKERT—Very early salmon pink. Fine grower. Bulbs make three or four good spikes. Fine commercial.

LACINATUS—Small in size. Rose pink color. Petals deeply cut or lacinated. Good propagator.

LE MARECHAL FOCH—Its only fault is that it is too good a propagator. Early light pink of fine form.

LILAC WONDER—A very pretty shade of lilac lavender. Produces good spikes of a mighty fine color.

LONGFELLOW—A new pink that is a dandy. Large well-opened flowers on tall graceful spikes.

LORELEY—Dainty yellow, shaded pink. Not well known but quite pretty.

LOS ANGELES—The "cut and come again" glad. Lots of side spikes of good quality. Delicate pink with cerise feather. Wonderful propagator.

MAINE—Very strong grower. Cream white with a greenish cast. Large flowers.

MARIE KUNDERD—The very best early white. Large size, nicely ruffled. Flowers of fine substance on good spikes.

MARMORA—The Australian wonder glad. Beautiful smoky lavender with deeper blotches in throat. Very large florets on tall spike, six to ten open at once. If introduced by American grower this would be priced at \$100.

MARNIA—Fine variety of luminous orange shade. The best of its color at the price and one you should really have.

MARSHAL FOCH—One of Kunderd's best. Light salmon pink, darker throat. Very large and strong.

MATTIE BELL—Buff and yellow. Very early and heavy propagator.

MING TOY—One of our favorite primis. Buff with yellow throat. Good size and altogether excellent.

MINUET—In our opinion this is still the outstanding lavender. It hasn't a fault—fine color, strong grower, large flowers and a number out at one time. The price has come down again.

MIXTURE—We don't grow mixtures but are glad to make up special ones to suit your fancy and pocketbook. Let us know what you desire.

MRS. COTHRAN—A very odd ashes of roses shade.

MRS. F. C. PETERS—An indispensable orchid lavender. Many blooms of good size on tall spike. Blooms late and is fine though inexpensive.

MRS. H. E. BOTHIN—Blooms late over a long season. Ruffled salmon flesh with flame red blotch.

MRS. KRISTIAN PRESTGARD—Pure snow white blooms of good substance. Seven or eight lily-like flowers open at once. Very chaste and lovely.

MRS. LEON DOUGLAS—This glad grows well above a man's shoulder and the blooms are as large in comparison as the spike. Salmon rose striped with flame and scarlet. Absolutely indispensable.

SEE PRICE LIST ON PAGE 11

MRS. L. S. HUBBARD—Attractive wine purple prim. Fine grower.

MRS. M. J. KILLION—Very large white with opalescent tints. One of the very lovely new varieties of a little different shade.

MRS. P. W. SISSON—There are so many wonderful pinks that it is difficult to say which is best. Mrs. Sisson stands well towards the front. A creamy light pink of fine size. Tall strong grower and good propagator. A really outstanding gladiolus.

MRS. P. VOS—Early light peach red prim grandiflorus. Slender, graceful spike.

MRS. VAN KONYNENBURG—Perhaps the greatest light blue. It is not plentiful even yet but has dropped considerably in price. After four years' trial it is established as one of the most dependable of this fickle shade. Fine spikes of large flowers.

NANCY HANKS—Rich apricot or orange pink, large well-open flowers. Makes a fine spike. Good grower and stands heat.

OPALESCENT—A glistening pale lavender. Easy to grow and you are sure to like it.

ORANGE GLORY—One of the most popular of the ruffled race. Easy of culture and well liked.

ORANGE QUEEN—An outstanding prim. grandiflorus. A favorite among cut flower buyers. Its orange yellow color is distinctive and the flowers are of good size.

OSALIN—Lovely coral pink with soft orange throat. Good height, fine placement and six large blooms open at one time. The color is quite striking.

PAUL PFITZER—Brilliant velvety purple from Germany. Strong and healthy and a very fine propagator.

PHAENOMEN—Lovely color combination of softest pink and purest yellow. Early and good healthy grower.

PINK WONDER—Mammoth size, fine light pink color. Very popular variety and deserving of its popularity.

POLA NEGRI—Creamy apricot pink with several open. One of Diener's favorites.

PRIM BEAUTY—Tall, early and very distinctive. Narrow pink stripes on a buff ground. Fine novelty worth growing.

PRINCE OF WALES—One of the best earlies. Clear salmon pink with yellow throat. Old but good.

PURPLE GLORY—Best of all the "Glories." Strong grower. Dark maroon red with almost black blotches and well ruffled. We can't supply the demand.

QUINTON—Coral pink, pink lines on yellow lip. Large and early. Many bulblets bloom. Slender stem. Good propagator.

RICHARD DIENER—Fine salmon pink with cream throat. Tall spikes with nine or ten magnificent florets open. You can't do without this one.

RITA BECK—One of the best ever. Clear shell pink with scarlet lines on lip. Large flowers and many open. Blooms late. Worth the price.

ROMANCE—Salmon rose bordered blue. Good grower and quite popular.

SEE PRICE LIST ON PAGE 11

ROSE ASH—Ashes of roses shade—it's a color that seems to grow prettier the more you see it. Tall, slender spike.

ROSE MIST—Our favorite of all the prim's. Old rose with buff showing through. It seems to change color as it opens. It is a rather mysterious, undescrivable color. The tall spikes lift far above the foliage.

RUFFOLACE—Nicely ruffled and lacinated. Pure white, good size and several open. Very attractive novelty.

SACAJAWEA—Distinct new color, velvety Indian red with golden bronze overcast. Blooms of good size on strong willowy stem.

SARABAND—Large wide open flower of rich velvety bordeaux with straw yellow blotch, feathered bordeaux. Tall, good substance. Fine oriental color.

SCARLANO—Good standard scarlet red. Excellent color and fine commercial variety.

SCARLET PRINCEPS—The favorite of the Western flower markets. Intense scarlet of a shade that is different. Spikes not tall but showy.

SCARLET WONDER—A red that makes them all sit up and take notice. The florets are enormous and the color is fine. The spike is only of medium height but this is an outstanding variety because of its size and color.

SEÑORITA—Rich mahogany brown color, lines of brick red in throat and flamed—new and distinct shade. Medium size and height.

SIDNEY PLUMMER—Light yellow marked with pink and ruffled. Several blooms open at once. Fine commercial variety. Very pretty and easy to grow.

SOVEREIGN—A rather new dark blue that is gaining a lot of popularity. Resembles Hulot in color but larger and stronger grower.

SUNNYMEDE—Orange yellow with deep red blotch. Medium sized, well-opened blooms. Color is quite distinct.

TRILBY—Light buff, yellow throat. Beautifully ruffled. Tall, strong stems; many flowers open. Very refined flower.

TYCKO ZANG—Very large new pink. Salmon shade with white throat. Strong grower and wonderful propagator. Anyone can afford it now.

UHLAN CHIEF—Bright vermilion scarlet, darker throat. Good grower and early. Very striking.

VEILCHENBLAU—Pfitzer's famous dark blue. Large flowers and tall spike. Very handsome and popular.

WHITE GLORY—Fine ruffled white with iris blue throat. Good grower and well liked.

WHITE WONDER—Large midseason white showing a little pink in hot weather. Several open making fine spike.

W. H. PHIPPS—One of the greatest of all glads. Has tall spikes of many immense flowers and most of them open at the same time. Don't pass this up. It is king of the garden the latter part of the season.

SEE PRICE LIST ON PAGE 11

Retail Prices--January, 1929

These prices cancel all previous quotations. Six bulbs at dozen rate, 50 bulblets at 100 rate. Large size bulbs will run 1 $\frac{1}{4}$ in. or over and will average 1 $\frac{1}{2}$ in. or more; medium bulbs are from $\frac{3}{4}$ in. to 1 $\frac{1}{4}$ in.; small are under $\frac{3}{4}$ in. and will average about $\frac{1}{2}$ in. Bulblets are selected and liberally counted.

Discounts

In order to encourage early ordering, we will give a discount of 10% on all cash retail orders sent before Feb. 15th, 5% on those before March 15th. Besides this, we give 5% off if your order is over \$15, 10% if over \$50. We will ask that you send no orders for less than \$1. We will continue the practice of giving liberal count and include extras in all orders. We believe our customers, like the rest of us humans, enjoy surprises so we try to give you all something else you will enjoy in addition to those you pay for.

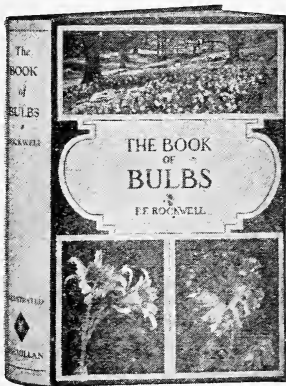

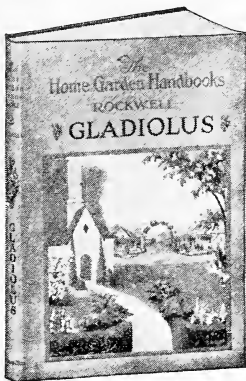

We give a discount of 5% on all retail orders to members of the A. G. S. Mention your 1929 membership number in ordering.

Two Helpful Books

We wish to call the attention of our friends to two volumes recently published that are of especial value to the amateur grower. Either of them may be obtained through us.

Gladiolus, by F. F. Rockwell. When making your selections for gladiolus bulbs, this book suggests where to place new plantings and how to select them. Later in the season the book is an indispensable guide to proper planting and care of the bulbs for greatest beauty and enjoyment. Ill., 96 pp., \$1.00.

The Book of Bulbs, by F. F. Rockwell. Pictures and text take you into the garden and show the almost limitless possibilities that bulbs offer. Types are discussed and varieties appraised for their suitability to different uses. Complete information on growing and propagation. Ill., 272 pp., \$3.00.

Please Read Carefully

We guarantee you will be treated right. We want satisfied customers—not merely one order. It costs more to get you on our mailing list than one small order is worth so we have to deliver the goods to make a profit on repeats. If there is anything wrong, tell us. We use every effort to have everything just as it should be but if we don't have everything just right we want to know it.

All prices in this catalogue include packing and transportation to any place in the United States. Our retail customers do not find any extra charges tacked on their bill. We ship to Dec. 1st in the fall and after March 1st in the spring at our own risk. If you wish your bulbs during the winter you assume the possibility of their loss by freezing. We reserve the right to ship by either mail or express.

We do not substitute another variety for one you order. If stock is short we may send a size larger or smaller, giving extra count of course to make up for a small size.

We are growing several of the new Australian and German varieties under bond and they will be available in another year. Canberra, Mrs. S. A. Errey, Maracco, Stuttgardia, Yellow Perfection and others are among these.

Some people are not familiar with variety names. To these we suggest that they tell us how many bulbs they want, how much they wish to spend and the colors they prefer. We will be glad to make up mixtures or assortments, labeled or not, to fit any specifications and will assure you a heaping money's worth.

This firm or a member of it holds membership in: American Gladiolus Society, Northwest Regional Gladiolus Society, American Rose Society, Lewiston Rose Society, Garden Club (Clarkston-Lewiston).

Join the American Gladiolus Society. The Review (a fine magazine issued monthly) is easily worth the membership fee of \$2, in fact some single issues are worth that much. Tear off and mail this coupon to the Secretary with your remittance.

I hereby apply for membership in the American Gladiolus Society, enclosing \$2 for 1929 dues, \$1 of which is for subscription to the "Review."

Street and No.

City..... State.....

Mail this application and \$2 to
ROSCOE A. HUFF, Secy., Goshen, Ind.

Credit for this application goes to Paul-Ham Gardens,
Lewiston, Idaho.

SPECIAL OFFER

Send us any amount from \$2 up, before March 15th, and we will mail you, sometime in April, \$3.50 worth of bulbs. These bulbs will be selected from regular stock and correctly labeled but selection must be left entirely to us. If there is any color to which you object, we will be glad to omit same. This is a real bargain for those who want some good glads but are not particular as to varieties. We offer it because we are bound to have a surplus of some kinds at planting time and you get the benefit.

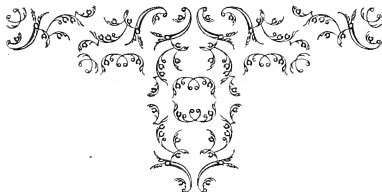

If you will kindly send us names of your acquaintances who grow Gladioli, we will include extra bulbs with your order to help show our appreciation.

This Price List Cancels All Previous Quotations.

All Stock Is Offered Subject to Prior Sale.
